Students' Diary

Day 3

Student Y

Today, I woke up at 9a.m. So, I had brunch as a pancake. I put on Biscoff cream. It was so delicious, and a little bit crunchy! I thought I wanted to buy it as a souvenir in Japan.

After brunch, my host family took us to the city hall, and also to the shopping mall. In the city hall, there are museums about the history of Australia, and Aboriginal people.　And I saw a showcase of white clothes for kids and babies. I remembered that I studied about that in my English class before. I thought it was interesting.

After visiting the city hall, we went shopping. I wanted to buy souvenirs for my friends and my family. I founded the shop as a T2, that famous tea shop. I wanted to buy it for my family, especially my sister because she really likes tea. I try to drink some flavors. I wanted my sister to try different kinds of tea, so I was going to buy an assortment box, but it was too expensive, so I gave up.

After that, I went around to several different stores, but I couldn't find anything I really wanted, and everything was so expensive that I ended up buying nothing. My feet are so sore from walking around so much. I seriously walked like 10,000 steps.

After that, I went back home to take a rest. We both accidentally passed out for an hour even though we weren't planning on sleeping. For dinner, my host family made carbonara, and it was so delicious!! Tomorrow, we will visit an outlet mall. So, I hope I can find a good souvenir there.

Today, I get up at 7AM. And wash my face and teeth. In 8 AM, we went to the church. I had never been to the church！ For the first time is today. So, I was excited. This is very good experience for me.

After that, we went to the cafe and ate breakfast. I ate pancake. There are strawberries, banana, raspberry and so on. I was very delicious！After eating breakfast, we went shopping. I bought many snacks for my family, club teacher, and club friends. My club teacher likes blue raspberries, so I bought this one. I was happy because I can buy anything I want.

After shopping, we went back home and make pizza！I don't know how to make pizza. My host family taught us how to make pizza. It was very fun and good experience for me.

After making pizza, we went shopping again. First, we went to shopping mall. Second, we went to IKEA. Then, I found my favorite dolls. I have small monkey doll, I call him'' Rikuto-kun. I found big '' Rikuto-kun in IKEA. I was surprised!! I want to buy the big ''Rikuto-kun but I didn't have money. So, I gave up buying that. If we go to IKEA again, I want to buy the big ''Rikuto-kun.

We went back to home, we made Razania！ It is very high calories, so I worry about my health but it was very delicious！I want to eat it again. School will start tomorrow.
